

SOCIAL MEDIA GUIDELINES

Active Moms in Prayer (MIP) leaders and leadership may set up a Facebook page/group, an Instagram page or a social network texting platform. By using Moms in Prayer on the name of the account you are agreeing to adhere to the social media goals, standards and page set up requirements for the account. If you are not in leadership (CP, AC etc) we recommend to only set up closed groups.

SOCIAL MEDIA GOALS:

The goal of Moms in Prayer social media is to outreach, encourage and equip all Christian women in our communities by continually pointing them to the mission and vision of Moms in Prayer. As an outreach our focus should be drawing women into a MIP group. Our pages should offer encouragement to both the individual women and to MIP groups. The focus should be to equip women in the 4 steps of prayer and direct them to MIP resources. Our desire is to portray Moms in Prayer International as one united ministry, calling the women of the world to pray for children and schools. We encourage to give them the registration information of our website <https://momsinprayer.eu/index.php/eu/leaderscorner/register-your-group> or have your leadership involved, offering her contact.
